

A man is performing a handstand on a brick patio. He is wearing a grey cap and dark shorts. His legs are extended upwards, reaching towards a hanging plant. The background features a building with large, dark-framed windows and a brick wall. The text "THE 6 'HOLY GRAIL' EXERCISES" is overlaid in large, white, bold letters.

THE 6 “HOLY GRAIL” EXERCISES

For strength, mobility, and
an awesome physique

A Quick Primer

The following six movements are all I have used in my strength training for over half a decade, personally and with a wide range of students.

Progressed to a high enough level, they unlock the entire body's musculature, strength and functionality. If that's what you're after, then look no further...

The 6 Exercises →

#1

THE PLANCHE PUSHUP

Movement pattern:

Horizontal push

Muscles developed:

Chest

Functional benefits:

→ Shoulder extension mobility (opens chest)

Movements unlocked:

- ✓ Planche
- ✓ Planche pushup
- ✓ Planche press
- ✓ Back lever

= Shoulder flexion from extension

Levels

Ground zero:

Knee pushup

Checkpoint:

Tuck planche

End goal:

Straddle planche

#2

THE FRONT LEVER ROW

Movement pattern:

Muscles developed:

Functional benefits:

➡ Posture

Movements unlocked:

✓ Front lever

✓ Front lever pull

✓ Front lever row

Horizontal pull

Upper back

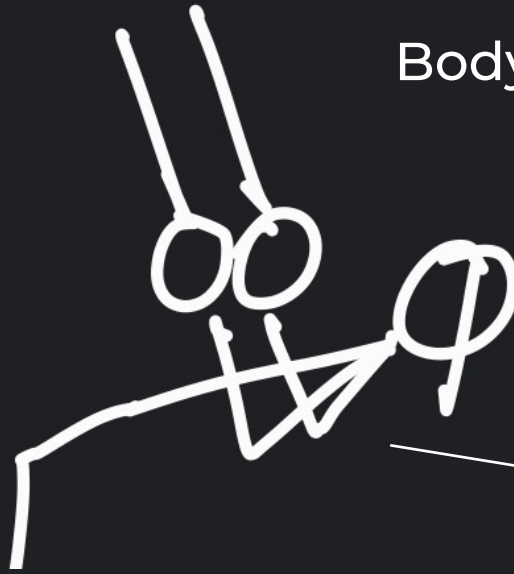

= Shoulder
extension
in extension

Levels

Ground zero:

Bodyweight row

No weight
on hands

Checkpoint:

Tuck front lever

Feet off the
ground

End goal:

Front lever

Legs
straight

#3 THE HANDSTAND PUSHUP

Movement pattern:

Muscles developed:

Functional benefits:

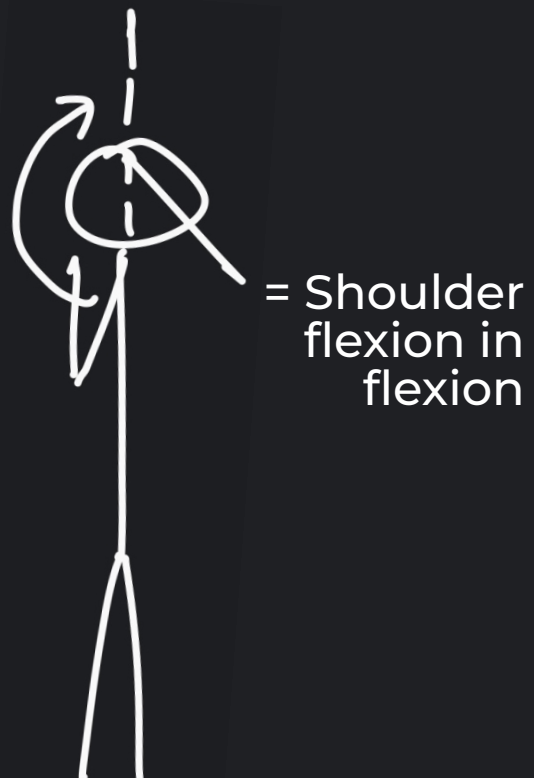

➡ Overhead stability

Movements unlocked:

- ✓ Handstand
- ✓ Handstand pushup
- ✓ Handstand presses

Vertical push

Shoulders, triceps

Levels

Ground zero:

Pike pushup

No weight
on hands

Checkpoint:

Shoulder stand

Bottom
position, full
bodyweight on
hands

End goal:

Freestanding
handstand
pushup

Full-range
unassisted

#4 THE ONE-ARM CHINUP

Movement pattern:

Muscles developed:

Functional benefits:

➡ Shoulder flexion (overhead) mobility

Movements unlocked:

- ✓ Chinup, pullup
- ✓ One-arm chinup
- ✓ Muscle up

Vertical pull

Lats, biceps

= Shoulder extension from flexion

Levels

Ground zero:

Feet-assisted chinup

No weight on hands

Checkpoint:

Two-arm chinup

Full-range, unassisted

End goal:

One-arm chinup

Full-range unassisted

#5 THE LOADED SINGLE-LEG SQUAT

Movement pattern:

Squat

Muscles developed:

Glutes, quads

Functional benefits:

- Deep resting squat
- Explosive jump power

Movements unlocked:

- ✓ Single leg squat

= Triple extension (hip, knee, ankle)

Levels

Ground zero:

Assisted bodyweight
squat

Checkpoint:

Single leg squat

End goal:

Single leg squat + 75%
bodyweight

jack h. woods

#6

THE NORDIC CURL

Movement pattern:
Muscles developed:
Functional benefits:

- Knee stability
- Injury prevention
- Sprint speed

Movements unlocked:

- ✓ Nordic curl

Hamstring curl
Hamstring

= Knee flexion

Levels

Ground zero:

Assisted nordic curl

Checkpoint:

Partial-range unassisted nordic curl

End goal:

Strict nordic curl

Ready to unlock all six?

These movements are the foundation of my RINGSTRONG training system.

Trained right, **these movements and 40 minutes a week** are all you need to get everything you want from your body.

If you want to learn how it works, I created a free in-depth training to walk you through it.
